

Get Your Future
on Track

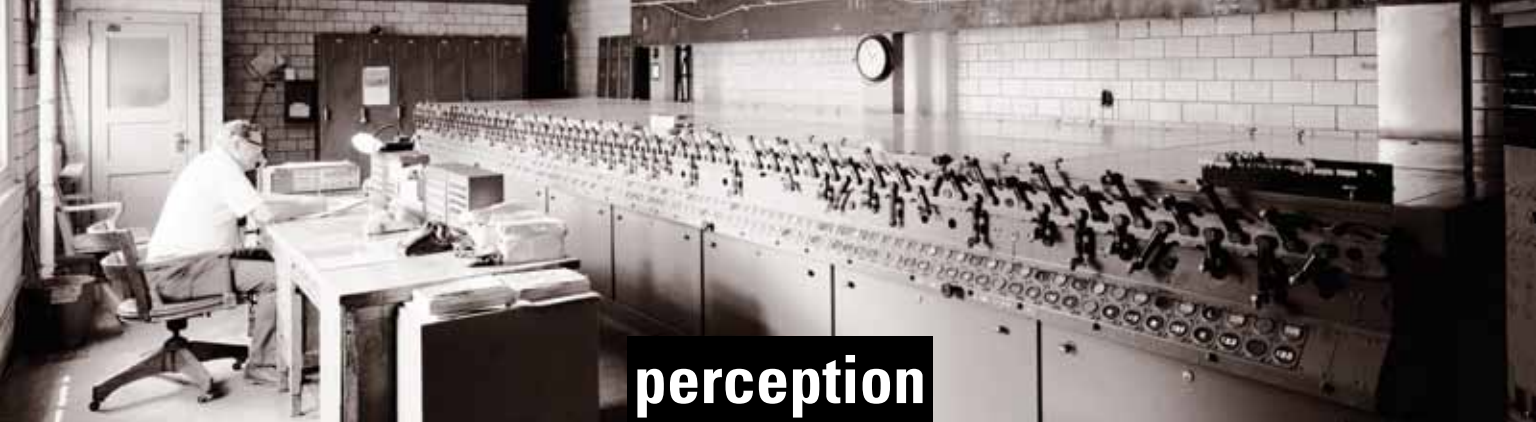

BNSF[®]
RAILWAY

Get on the Fast Track to Success

You'll find the track ahead is wide open and the career paths endless

Every hour of every day, BNSF trains transport the products that support and enrich our lives – from the food products that grace our tables; to the construction materials to build our homes and businesses; to the new vehicles we drive; to the low-sulfur coal and wind turbines used to generate our electricity; to the countless consumer goods, from clothing to computers, that we use daily.

perception

reality

At BNSF Railway, we take a progressive approach to designing and implementing technology and processes that keep our customer shipments moving while helping to protect the environment. We invest billions of dollars every year to maintain and expand our infrastructure and equipment fleet and to further improve our outstanding safety record. BNSF recognizes that a safe and secure railroad network is essential to our nation's future.

Management Trainee Program

The BNSF Management Trainee Program is designed specifically to shape the future leadership of our company. You'll experience orientation at our corporate headquarters in Fort Worth, Texas, and then progress to your department where you'll spend the next 6-12 months training and learning about the railroad. With your big thinking, innovative ideas and ambitious dreams, you'll keep our company moving forward.

The Summer Intern Program provides you an opportunity to learn more about how our efficient, safe and "green" rail network supports the global supply chain. You'll participate in group events and projects, experiencing first-hand what it is like to be a full-time BNSF employee. Operating one of the largest railroads in North America, we have countless opportunities for you to develop your skills, create new ideas and even travel!

Summer Intern Program

We believe it's our people

who drive the railroad to success.

That's why we focus on giving you a career experience as rewarding as it is challenging.

The opportunities are many at BNSF – which track do you want to start on?

- Operations
- Marketing
- Finance
- Technology
- Human Resources
- And More!

BNSF[®]
RAILWAY

A BERKSHIRE HATHAWAY COMPANY

BNSF Railway

- Is helping to power our nation's economic recovery, as we have invested more than \$30 billion of capital into maintaining and expanding our rail network in the past decade.
- Is the largest grain-hauling railroad in the U.S., serving more of the nation's major grain-producing regions than any other railroad.
- Supports the industrial supply chain, transporting carloads of raw materials to and from manufacturers, producers and refineries.
- Transports more than 4 million intermodal truck trailers and containers a year; each one of BNSF's largest intermodal trains takes 280 or more trucks off our nation's crowded highways.
- Can move one ton of freight 495 miles on just one gallon of diesel fuel. Overall, freight railroads transport 40% of the nation's freight but account for just 2.2% of all transportation-related greenhouse gas emissions.
